from sing around 2. On 2 12-m usus observation 3. On 3 gun empl	and 2:30 p.m. on 21 October 1953, four twin-engine aircraft took off Erfurt-Bindersleben airfield. Further take-offs were made by 24 le-engine aircraft around 2:45 p.m. and by 10 swept-back jet fighters and 3 p.m.  November  from Erfurt  a MiG-15 took off for a inute flight. On 7 November, the alert aircraft were parked at their dispersal area near the flight control station. No activity was rved on the landing field on 5 November. On 3:December, the alert raft were again parked near the flight control building.  December, four men were observed near four uncovered guns in the AA emplacement at the field. About 20 men lined up near the AA gun acement. 3 The two radar sets which had been observed in the southwestern er of the landing field in October were not seen there on 7 November.  4	25X1 25X1 25X1
regi part  2. from	Corment. On 21 October, aircraft of the ground attack regiments from denburg-Briest and Brandenburg-Arado airfields and elements of the fighter ments from Grossenhain or Frand flew back to their home fields, after icipation in the maneuvers of the Eighth Gds Army in Thuringia.  Comment. An alert flight, probably assigned to the fighter regiment Merseburg airfield, is stationed at Erfurt-Bindersleben airfield.  Comment. The AA gun emplacement is located on the southern edge of field.	
4.	Comment. During the period when fighter units participated in maneuvers, iferest-type radar set and a Fishnet-type radar set were located at rt-Eindersleben airfield.
